Development License for Application Developers
License for Purchase

This system, theme or plugin is comprised of three parts.

(1) the PHP code and integrated HTML are licensed under the General Public License (GPL). You will find a copy of the GPL in the same directory as this text file.

(2) The programming structure contains special code from third parties related to the system, such as security systems, user levers, and content management. The code is sourced from a third party with a GPL license.

(3) All other parts, but not limited to the CSS code, images, and design are licensed according to the license by software engineers and programmers.

Development License for Application Developers
